Tavora Residences

Dubai | Pricing summary | Archived test: 2 August 2026

ONE CASE. A REVIEWABLE PRICING OUTPUT.

A concise example of Estiqra's pricing output for a 95-unit test inventory. The companion inventory uses the same archived report and the same unit prices.

95 units

Defined test inventory

AED 70.3m

Approximate indicated inventory value

AED 1,056

Saved base grid price per sq ft

AED 739,638

Reported average unit estimate

Pricing context

The archived report places the saved base grid price alongside a comparable-market benchmark of AED 1,101 per sq ft. These figures describe different parts of the output; the benchmark is not the price of every inventory unit.

Lowest unit estimate	**AED 422,703**
Unit price-per-sq-ft range	**AED 1,056 to AED 1,217**
Pricing confidence	**Medium**
Evidence readiness	**45 / 100 - further corroboration needed**

Sample context and limits

Prepared from one archived testing report. Estimates are illustrative advisory outputs, not a developer price list, current market advice, a certified valuation, or evidence of a customer engagement. Confirm source evidence and obtain professional review before relying on any figure.
